The "American" Phenix Fire Insurance Company.

VICTORIA, Dec. 22nd, 1880.

To THE EDITOR;—In reply to your advertising correspondent "Insurer" who endeavours to bolster up the American *Phenix* Fire Insurance Company to the detriment of the British Fire Insurance Companies (against whom are NO out standing claims) it may be remarked as a noticable fact that every *American* Fire Insurance Company hitherto having an agency at Victoria has failed, the deluded victims receiving nothing for the premiums they paid. For the benefit of the insuring public is subjoined an extract from the Canada Blue Book for 1879, showing the attested statement of the standing of the *American Phenix* Company represented in this city by H. F. *Heisterman* and Co:—

CAPITAL.

Amount authorized subscribed and paid up in Cash	$1,000,000 00
Total Assets in Canada	109,140 03
Total Amount of Unsettled Losses in Canada	23,676 60
Total Liabilities in Canada	30,625 73
Total Net Amount in force in Canada	1,193,294 00

Subscribed and sworn to 18th February, 1880, by ROBERT HAMPSON, Agent in Canada.

General business statement for the year ending 31st December, 1879, as returned to the Department of Insurance, State of New York:

Total Cash Expenditure	$ 2,565,613 10
Total Cash Income	2,267,750 91
Net Amount in force 31st Dec., 1879	170,428,065 00

The Phenix Insurance Company of Brooklyn, N. Y., vs. the English Fire Offices.

VICTORIA, Dec. 24th, 1880.

To THE EDITOR:—Thanks to your * correspondent who had not the manhood to sign his name for advertising the business of the "*Phenix*" as far as it shows the magnitude of its oporations; but we certainly hold him responsible for the untruths and garbled statements he has made. Your correspondent says the Phenix had $23,676 unsettled fire losses on Dec. 31st, 1879. *This is a falsehood; not one single dollar did the Company owe* which was not paid, (see Blue Book 1879.)

The $23,676 he refers to were *Marine losses in course of adjustment*, and anybody but a gumhead knows these losses are different in their nature from *fire* losses.

As regards his statement that no British Company had *any* outstanding claims, the Blue Book says the Royal alone had $19,833.46, of which $3,620 were resisted and in suit, and $2,600 not resisted (see Blue Book). So much for the veracity of the English extortioners.

Your correspondent seems in the habit of making sweeping assertions without foundation in fact; and the one cited above shows what his assertions are worth. He says every *American* Insurance Company that has ever done business here has failed. Does he mean that the "Union" of San Francisco is shakey? We always thought that a good company. "It is a dirty bird that fouls his own nest."

There was but one small American fire office doing business here. Its name was the People's Company, and it withdrew of its own accord and nobody lost any money by it.

The first *first-class* American fire company that ever opened an office here is the Phenix of Brooklyn, and it has been in business in the United States since 1853; has progressed in magnitude of business from year to year and paid every loss against it since organization. Last year it stood *fifth* on the list, including English companies, in amount of premiums received in the United States.

The reason your correspondent is so enraged is that the English companies are losing their business and none more so than himself. The public see that it is high time to break the iron ring that the combination had forced hitherto round their necks and give their business where it finds justice done to them. After trying by all sorts of misrepresentation at the head offices, both in England and in New York, to compel H. F. HEISTERMAN & Co. to join their combination and signally failing therein, they suddenly discover (the fossils!) that there is a plentiful supply of water and, oh! generosity, reduce the rates *one quarter per cent!!!*

But it is no use; the public see through the dodge and continue to leave the English offices because they can do better with the agents of the "Phenix" Insurance Company of Brooklyn, N. Y.,

* H. F. HEISTERMAN & Co.

A Happy Restoration.

I can truly say that I owe my present existence and happy restoration to the hopes and joys of life, to the use of Warner's Safe Kidney and Liver Cure, and I say to every one suffering from any manner of kidney, liver or urinary trouble, "Use this remedy and recover."

W. E. SANFORD.

THE LEADING SCIENTISTS OF TO-DAY agree that most diseases are caused by disordered Kidneys or Liver. If, therefore, the Kidneys and Liver are kept in perfect order, perfect health will be the result. This truth has only been known a short time and for years people suffered great agony without being able to find relief. The discovery of Warner's Safe Kidney and Liver Cure marks a new era in the treatment of these troubles. Made from a simple tropical leaf of rare value, it contains just the elements necessary to nourish and invigorate both of these great organs, and safely restore and keep them in order. It is a **POSITIVE REMEDY** for all the diseases that cause pains in the lower part of the body—for Torpid Liver—Headaches—Jaundice—Dizziness—Gravel—Fever, Ague—Malarial Fever, and all difficulties of the Kidneys, Liver and Urinary Organs.

It is an excellent and safe remedy for females during Pregnancy. It will control Menstruation and is invaluable for Leucorrhœa or Falling of the Womb.

As a Blood Purifier it is unequalled, for it cures the organs that *make* the blood.

READ THE RECORD.

"It saved my life."—*E. B. Lakely, Selma, Ala.*

"It is the remedy that will cure the many diseases peculiar to women."—*Mother's Magazine.*

"It has passed severe tests and won endorsements from some of the highest medical talent in the country."—*New York World.*

"No remedy heretofore discovered can be held for one moment in comparison with it."

—*Rev. C. A. Harvey, D.D., Washington, D.C.*

This remedy, which has done such wonders, is put up in the LARGEST SIZED BOTTLE of any medicine upon the market, and is sold by Druggists and all dealers at **$1.25** per bottle. For Diabetes, enquire for WARNER'S SAFE DIABETES CURE. It is a POSITIVE Remedy.

DR. J. COLLIS BROWNE'S

(Ex Army Medical Staff.)

CHLORODYNE

IS THE ORIGINAL AND ONLY GENUINE.

CAUTION.—Vice-Chancellor Sir W. P. Wood stated that Dr. J. COLLIS BROWNE was undoubtedly the inventor of CHLORODYNE; that the story of the defendant, Freeman, being the inventor was deliberately untrue, which he regretted had been sworn to. Eminent hospital physicians of London stated that Dr. J. Collis Browne was the discoverer of Chlorodyne; that they prescribe it largely, and mean no other than Dr. Browne's.—See *Times*, July, 12, 1864.

The Public, therefore, are cautioned against using any other than

DR. J. COLLIS BROWNE'S CHLORODYNE.

REMEDIAL USES AND ACTION.

This invaluable remedy produces quiet, refreshing sleep, relieves pain, calms the system, restores the deranged functions, and stimulates healthy action of the secretions of the body, without creating any of those unpleasant results attending the use of opium. Old and young may take it at all hours and times when requisite. Thousands of persons testify to its marvellous good effects and wonderful cures, while medical men extol its virtues most extensively.

CHLORODYNE is admitted by the profession to be the most wonderful and valuable remedy ever discovered.

CHLORODYNE the best remedy known for coughs, consumption, bronchitis, asthma.

CHLORODYNE effectually checks and arrests those too often fatal diseases—diphtheria, fever, croup, ague.

CHLORODYNE acts like a charm in diarrhœa and is the only specific in cholera and dysentery.

CHLORODYNE effectually cuts short all attacks of epilepsy, hysteria, palpitations and spasms.

CHLORODYNE is the only palliative in neuralgia, rheumatism, gout, cancer, toothache, meningitis, &c.

EXTRACTS FROM MEDICAL OPINIONS.

The Right Hon. Earl Russell communicated to the College of Physicians and J. T. Davenport, that he had received information to the effect that the only remedy of any service in Cholera was CHLORODYNE.—*See Lancet*, Dec. 31, 1864.

From A. Montgomery, Esq., late Inspector of Hospitals, Bombay.—"CHLORODYNE is a most valuable remedy in Neuralgia, Asthma, and Dysentery. To it I fairly owe my restoration to health, after eighteen months' severe suffering, and when other remedies had failed."

Dr. Lowe, Medical Missionary in India, reports (December, 1865) that in nearly every case of Cholera in which Dr. J. COLLIS BROWNE'S CHLORODYNE was administered, the patient recovered.

Extract from the General Board of Health, London, as to its efficacy in Cholera.—"So strongly are we convinced of the immense value of this remedy, that we cannot too forcibly urge the necessity of adopting it in all cases."

See leading article, *Pharmaceutical Journal*, Aug. 1, 1869, which states that Dr. J. Collis Browne was the inventor of Chlorodyne; that it is always right to use his preparation when Chlorodyne is ordered.

CAUTION.—None genuine without the words "Dr J. COLLIS BROWNE" on the Government Stamp. Overwhelming medical testimony accompanies each bottle

Daily Colonist.

TUESDAY MORNING, JAN. 18TH, 1881.

L. P. FISHER, Advertising Agent, 21 Merchants' Exchange, San Francisco, is authorised to receive advertisements for the columns of this paper.

THE CHARGE OF THE WELLINGTONIANS.

The superintendent of education, or some illinformed person at his dictation, writes to the government organ to say that "*The Colonist* editor has again had one of his rabid fits against the Superintendent of Education and, as usual, he is barking up the wrong tree." This statement the superintendent knows to be entirely untrue. The article that has so stirred his bile was signed by 44 residents of Wellington who represent 103 children of school-going age. It was sent to this journal because, as the signers state, "all former representations have been *completely ignored* and we deem it necessary for the same reason to publish this petition." In short, the people of Wellington suffering from what they justly conceive to be a great wrong, and finding that all their "representations have been completely ignored," write to the press to expose the condition to which educational matters have sunk in that district. Through the medium of this paper alone will the statement of their grievances meet the public eye, the government or the House. The words "completely ignored" are doubtless used for "burked." The superintendent or his ill-advised scribe cannot escape the responsibility of the statements of the address, lessen the force of the blow by attributing the authorship to the editor of *The Colonist*, or cast doubts upon the "genuineness of the letter." The statements are that the schoolhouse is in a state so disgustingly indecent and immoral in its tendency that it cannot be described in print; the schoolhouse is likened to the blackhole of Calcutta; it is said that parents who are required to pay school tax decline to send their children to the public school because of its condition; that the superintendent of education has not visited the district for "more than a year and a half although it is distant only 70 miles from Victoria," and the charges are summed up with these telling words: "*The whole concern is a disgrace to the province, a disgrace to the government, a disgrace to the place and a disgrace to the educational system and management of any country.*" These words, let it be remembered, are the deliberately expressed opinion of 44 residents of Wellington. They are not the expression of the editor of *The Colonist*, although he believes every word to be true, and any effort to cause them to appear as other than genuine will probably draw forth a still more forcible declaration of opinion from the Wellingtonians. The superintendent is now engaged in preparing his annual report and when he is assurred of the "genuineness" of the letter in *The Colonist* we hope he will incorporate it with that document along with the "completely ignored representations" of a previous date.

SUPREME COURT.

The public will have learned with a feeling of surprise that the government are about to increase the accommodation of the Supreme Court room for the convenience of the new judges; that new carpets and furniture have been ordered for an additional retiring room, and that other expenditures are on the *tapis*. This would seem rather an original mode for carrying out the requirements of the Act for the better administration of justice. Between Victoria and Cariboo there is not a single judicial officer before whom a civil case could be heard. From New Westminster to the foot of the Rocky Mountains the country is destitute of legal facilities and the collection of debts by legal process is an impossibility. We are not surprised that the Westminsterians have telegraphed to Ottawa a representation of their condition and to ask that one of the judges be at once located thereat. Similar complaints will doubtless soon be made by the interior districts and Cariboo, but when the people there shall be told that the bench of the Supreme Court is being enlarged to seat five judges, and that additions are in progress to the courtroom, what will be said? No one is so unreasonable as to expect either government or judges to perform impossibilities; but we cannot help expressing the hope that at the earliest pssible moment the learned gentlemen who have been assigned to interior districts will be on the way to their respective stations. The increased accommodations proposed at the courthouse are ominous of a prolonged stay of the judges at the capital, a proceeding which, we need scarcely say, would be most injurious to the country at large.

Woolen Mills.

We have much pleasure in appointing you our sole Agent for the Province of B. C. From M. MALCOLM & SON, Scotland Woolen Mills, Ontario.

EASTERN STATES.

NEW YORK, Jan. 8.—The *Herald* says: The prayer meeting in Plymouth church last evening was signalized by an outbreak of free speech that has not been equalled since the day of the scandal. For a long time it has been known to the initiated that among leading members there has been smouldering a feeling of dissatisfaction with the spiritual condition of the church. It found vent last evening. Beecher complained of spiritual dryness in the discussion which followed. Dr. White thought there was too much of Mr. Beecher in their meetings. He suggested that the pastor let the brethren do all the preliminary talking and that Beecher should come in and round it off with his rich experience. Mr. Richardson said that the evil was in too much admiration of Mr. Beecher. He believed that when Beecher died Plymouth church would scatter to the winds.

Mr. Beecher—No, it will not.

Mr. Richardson said there was a feeling of too much dependence upon the pastor by all the members.

Beecher made the closing remarks. He said: "You are not dead in earnest. You come into the prayer meeting languid with a thousand things in your heads, and not the slightest idea of God's presence in your mind. The good Lord of Heaven is not here; and what am I when he is not present? It seems to me that you try to make me God—Father, Son and Holy Ghost; whereas I am nothing but what I am; willing to take half the blame of the present condition of things, but if you will take the other half and distribute it among yourselves there is more than you can afford to have. What I say is that you have not the permanent presence of the Holy Ghost among you; in future I shall try to be half as smart as I've been in my talk and see what that will do."

LONDON, Jan. 10—At a meeting of Home Rulers yesterday it was agreed that if a fair discussion is permitted on the coercion bill and address no obstruction will be resorted to.

DUBLIN, Jan. 10 — A large land meeting was held at Armagh.

NEW YORK, Jan. 10—The *World's* London special says: Mr. Wm. Shaw, Home Rule member of parliament for Cork, spoke in the House to-night, and his speech created a great sensation. The Parnelites did not place much faith in Mr. Shaw, and they were not present to-night. Mr. Shaw was expected to curse the Land League Club. Instead of that he blessed it, saying that it was the only salvation of the country. His description of the condition of the peasantry in the west of Ireland was startling and sensational, and surprised those Irish members who were present. Mr. Shaw speaks of some of the Connaught farmers as rotting on their farms. The speech will be a material help to the Land League, which is now demanding a strong land bill. Mr. Parnell entered the house near the close of Mr. Shaw's address and was loudly cheered.

LONDON, Jan. 10. — Wm. Shaw, Home-Rule member for County Cork, resumed the debate on the address in reply to the Queen's speech. He said he had faith in Gladstone passing good land bills, but if he would propose a commission to fix fair rents such a measure would be rapidly passed and a coercion bill would become needless.

The *Daily News* says: The total effect of the statement of Henry Youle Hind is to vitiate the fisheries award by vitiating the statistics accepted by both Governments on which it rests. If Hind's figures are correct falsification has been committed, and the whole question must be reopened. We hope the government will refuse, in the name of English honor, to profit by a misstated case, and will insist on a complete investigation.

CHICAGO, Jan. 10.—The *Daily News'* London special says: The impression has prevailed and a rumor has been published that the Irish Land Commission have submitted a report to parliament. It is now officially stated that the Commission is unanimous in its decision. It stated that the conclusion arrived at is that a plan known as the "Three F.'s" — "Free rents," "Free Sales" and "Fixity of tenure"—has been approved. All the Commissioners are large land proprietors. To-night Mr. Shaw is expected to make a speech in the House of Commons in which he will go to the bottom of the Irish question. The report of the Commissioners will have great influence on the government.

LONDON, Jan. 10.—It is rumored that if necessary further debate on the reply to the Queen's speech will be postponed until after the passage of a coercion bill.

LONDON, Jan. 10.—Shaw, on behalf of a large number of English, Irish and Scotch members, has asked Gladstone to receive a deputation of home rule and liberal members on the question of land reform. This deputation will wait upon Gladstone to-morrow when it is expected the deputation from yesterday's meeting of Irish and English liberals will join it.

PALMERO, Jan. 10.—Fifteen persons were seriously injured by the fall of a staircase in church during the rejoicing on the occasion of the visit of the king and queen to-day.

BERLIN, Jan. 10.—A Christian liberal club has been formed here and is organizing a workmen demonstration against the Jewish agitation among the poorer classes.

DNBLIN, Jan. 10.—A terrible outbreak of fever is reported at Tanderag, County Armagh. One hundred and nine persons were prostrated by fever, and many deaths daily occur.

LONDON, Jan. 10. — Beaconsfield's speech at the opening of the session is generally admitted to be wholly inadequate to the demands of the occasion and the conservative party. The Earl, though it has been strenuously denied that such was the case, really appears to be broken in health and spirits. He evidently feels his defeat in April last much more keenly than has often been supposed. It is reported, also, that he takes a very gloomy view of the condition of British public affairs, and believes that the country is rapidly going on the downward track to perdition. Mr. Gladstone, on the contrary, is full of energy and spirit. He looks well and has remained in the House each night until its adjournment, and he speaks better than ever. The want of debating power on the conservative side in the House was never more conspicuous than it is now. The liberal party seems tolerably compact, though the extreme radicals look upon Gladstone merely in the light of a stop-gap and thirst for what they call a daring leader.

LONDON, Jan. 10.—Hanlan has a slight sprain in one of his arms. Laycock has gone to the seaside for a day or two.

OXFORD, Jan. 10.—The new university boat-house with many valuable boats has been burned.

INDIA.

BOMBAY, Jan. 10.—A plot to depose the Rajah and massacre all the European residents while in church, has been discovered at Kalapore, and 27 natives have been arrested. The *Gazette* reports that a conspiracy was formed among the Hindoos and Mussulmans of Kalapore to massacre the Europeans at church on the 7th of November, to slay the native officers and get the soldiers to join them to loot the town and raise a rebellion. Dakatotez, or gang robberies, for the purpose of raising funds, led to the discovery of the plot. Twenty-seven conspirators are now being tried at Kalapore. Three thousand natives were engaged in the plot.

MEXICO.

CITY OF MEXICO, Jan. 10.—At last accounts there was not a pound of flour in Tampico, but a cargo was anxiously expected from New Orleans.

It is feared the whole cotton crop in the State of Durango has been destroyed.

The cold weather at Chihuahua surpasses anything of the kind within the memory of the oldest inhabitant. There has been ice in Paso del Norte two inches thick.

An Enormous Diamond.

Of the many millions in value the diamond mines and river diggings of Griqualand West have yielded, the Kimberly *Advertiser* says the "Porter Rhodes" diamond stands alone in water, purity and size combined. The *Advertiser* says: "This remarkable diamond was found on the 12th of February last in one of Mr. Porter Rhodes' claims in Kimberley mine, and handed to him by one of the overseers, who will reap substantially the reward of his fidelity. Mr. Rhodes has kept his secret well until the past week or two, when a few personal friends were treated to a view, some of whom suggested exhibiting it in aid of the Carnarvon Hospital, and although the seemingly high sum of one sovereign per head was charged, the sum of £120 was netted in one day in Kimberly alone for the first institution of Kimberly. In weight it is one hundred and fifty carats, in shape that of a dodecahedron of perfect form, spotless and flawless, with small secondary natural facets finely ribbed which impart a beautiful satin-like appearance to it. A piece has been broken off very cleanly in the line of grain or cleavage from one side of about thirty-five or forty carats, and another piece of about fifteen carats is gone on the opposite line of cleavage, also a very clean fracture, and at the same end of the stone, so that the whole has the appearance of the top of an egg with a small piece off one side. That it will cut a brilliant as perfect in form as in purity is the opinion of our experts, whilst as to its water or whiteness one and all unite in pronouncing it so exceptionally fine that the sight of it can never be effaced from memory. Experts know that there are various kinds of whiteness known to the trade some more valuable than others. The whiteness of this diamond has been tested in every known way, and it is generally described to be of a lovely satinlike whiteness without a particle of steely blue, pinkish or any tinge or taint of any color whatsoever."

HOW QUICKLY the poetry of love evaporates into thin air when as a sequence it has to be emblazoned before the world through newspaper publicity *a la mode* (the recent wedding), Sir Thomas Hesketh and Miss Flora Sharon. Myriads of gas jets converting night into day, and countless flippant gasseous congratulations, in harmony with *hyas tyhee* society and brilliant diamonds to vie with the gas jets, reminding the spectators of Aladdin and his wonderful lamp. We are quite aware that it would be *in fra dig*, in such a station of life, to do the love in a cottage business, but they might have waited until St. Valentine's day to have simplified this grand display. *Apropos*, We are ready for the onslaught.

Absinthe, Insanity, and Death.

Absinthe drinking is said to steadily increase in the Republic, but much less steadily than in Switzerland and France, particularly in France, where great efforts are making for its abatement. It has grown to be an enormous evil in those countries, notable in the large cities like Geneva, Zurich, Berne, Marseilles, Lyons, and Paris. At the French capital the practice has augmented alarmingly within eight or ten years, officers of the army, business and professional men, and journalists and authors being specially its victims. A French physician of eminence has recently declared that it is ten times more pernicious than ordinary intemperance, and that it very seldom happens that the habit, once fixed, can be unloosed. The same authority says that the increase of insanity is largely due to absinthe. It exercises a deadly fascination, the source of which scientists have vainly tried to discover, although they have no trouble in ascertaining its terrible efforts. Its immoderate use speedily acts on the entire nervous system in general, and the brain in particular, in which it produces actual organic changes with accompanying derangement of all the mental powers. The habitual drinker becomes at first dull, languid; is soon completely brutalized, and then goes raving mad. He is at least wholly or partially paralyzed, unless, as often happens, disordered liver and stomach bring a quicker end. The liquor is dangerously seductive, because it seems, in the beginning, to help the digestive organs, when it really hurts them, and very seriously. Many persons have been induced to take absinthe for indigestion, and have thus gradually fallen under its baleful influence. The drinker is in most cases in seeming good health, having no thought of his peril, until the hour when illness has declared itself. He is apt, indeed, to believe that he is remarkably well, and to consider all the stories about absinthe mere bugaboos. The earliest symptoms of ailment lead to an examination, and to the knowledge that his entire system is deranged, usually beyond restoration. His first illness is apt to be his last, and death is a welcome relief. Absinthe has not long been known; in fact, it was not made a century ago. Some ninety years since, a French refugee, Dr. Ordinaire, settled at the small village of Couvet, Switzerland, and acquired a very fine practice in the neighbourhood. He prepared his own medicines, one of them being an extract of wormwood, which he held in high esteem and compounded with his own hands. He prepared it from a private recipe, and administered it to his patients with excellent effect. Before his death he imparted the secret to others, and the extract was extensively made and sold to peddlers. It was prepared from the yellow flowers of the common wormwood, and it was gradually improved, or, rather, deteriorated upon, until the present liqueur had been obtained. In the Val de Travers, Canton of Neufchâtel, about 100,000 gallons are annually distilled of this most alluring poison.

NOTICE IS HEREBY GIVEN

THAT APPLICATION WILL BE MADE AT THE next session of the Legislative Assembly for a Private Bill to amend the Act passed in the forty-third year of Her Majesty's reign entituled "The City of Victoria Official Map Act, 1880," by granting power to Joseph D. Pemberton and Benjamin W. Pearse, the Commissioners mentioned in the said Act, to alter the Map made and filed in the office of the Register-General of Titles at Victoria, in pursuance of the said Act, by defining the line of Government street on the West side thereof, between Fort street and Johnson street, so that it will be in accordance with the Official Map of the said City, known as the Map of 1861: and also to amend the said Map, "The City of Victoria Official Map, 1880," by defining the boundaries of Johnson street, from the West side of Wharf street to the Sea.
Dated 24th December, 1880.

The Dakota.

After the lapse of seven and a-half days, without tidings having been received of her whereabouts, we are reluctantly compelled to class the Dakota as a missing steamship. The steamship Empire, which sailed from San Francisco two days after the sailing day of the Dakota, arrived at Seattle on Sunday and reports having seen nothing of her on the passage up. The steamship Oregon, which sailed from San Francisco one day subsequent to the Dakota's departure, has arrived at Astoria and brings no tidings. The steamer Etta White went ten miles outside the Straits on Saturday and returned yesterday without having encountered the missing steamer. The U.S. revenue cutter Oliver Wolcott ran out into the ocean and turned back when distant only 20 miles from Destruction Island. From the mast-head the vision of the lookout extended nearly down to Columbia river bar. She came back yesterday from the cruise unsuccessful. It would be idle longer to dispute the assertion that "something must have happened the Dakota," but we do question the reasoning of those who are disposed to look upon the matter from the most dismal point of view. No doubt those who have friends on board are justly alarmed; but a steamvessel has consumed 13 days between this port and San Francisco and still came safely in. In the absence of definite news we should not be prepared to give up the ship for ten days to come, firmly believing that the worst which has befallen her is an accident to her machinery. We have too much confidence in the ability of Capt. Morse and his officers to believe that the steamship has been lost by stress of weather; besides, have we not the report of California's officers to show that the weather on the northern coast to the 14th inst. was fine and clear. If the machinery became disabled Captain Morse would spread his canvas, of which the Dakota has a fair supply, and stand off shore. Until yesterday the winds for a week past have been from the north and therefore favorable to give the vessel a good offing; but with her limited quantity of sail her progress would be very slow, and her course while sailing would be far out of sight of the coast range, whereas the course of the steamships Oregon and Empire would be close in shore, and they might easily miss sighting her.

The steamer Isabel from Puget Sound came in last evening, but she brought no telegrams from Portland later than the 16th inst., and these had no reference to the Dakota. South of Portland, we regret to state, the lines have been down since Tuesday last, a circumstance unprecedented for several years. It is doubtful even if any of the many telegrams from Victoria inquiring as to the whereabouts of the Dakota have as yet reached San Francisco, from which port steamers in search would be dispatched. This is most unfortunate as it is essential that the distressed ship should be found and relieved as speedily as possible. Unless the line to San Francisco is speedily repaired the first news of the disaster may reach San Francisco by steamer from Portland.

Last evening it was rumored that the U. S. revenue cutter Oliver Wolcott and H. M. S. Rocket would go to sea as soon as it has been definitely ascertained that the Dakota had not been heard of at San Francisco. Both vessels are lying with steam up ready to sail at a moment's notice.

Marine.

The U. S. revenue cutter returned from the search for the Dakota yesterday. The tug Etta White came back on Sunday.

The barkentine Emma Augusta arrived yesterday from the Sandwich Islands. While coming out of the harbor of Tailuhi she ran on a reef and sustained a slight injury.

Capt. McIntyre, of the bark Revere, has succeeded in finding a leak in the garboard, and the vessel is now receiving her coal ballast preparatory to loading with lumber.

The steamship Victoria from San Francisco for New Westminster with a cargo of railway freight is supposed to have sailed yesterday. She will call off this port and may have news of the Dakota.

HIGH SCHOOL.—The result of the Christmas examination was made public yesterday. Charles Hayward heads the list with 1015 marks; Charles Gardiner, 810; J. B. Carmichael, 789. These are the three highest on the list.

DELUSIVE.—A report obtained circulation yesterday afternoon that two steamers—one towing the other—were rounding Race Rocks. The report proved to be untrue.

DISCHARGING cargo on board the Signet will be completed to-day with the exception of a few tons of anthracite and Cumberland coals for smelting purposes.

Municipal Council.

MONDAY, Jan. 17.

The new Council held their first meeting last evening at 7.30.

A rearrangement of seats according to number of votes polled has been made. Present—His Worship the Mayor in the chair and Councillors Shakespeare, Smith, Mansell, McLean, Wriglesworth and Vigeleus.

The Mayor announced the following

COMMITTEES.

Finance — Couns. Shakespeare, Mansell and Vigelius.

Water Works—Couns. Smith, Shakespeare and Wriglesworth.

Streets. — Couns. McLean, Kinsman and Mansell.

Cemetery and Public Park—Couns. Mansell, Shakespeare and McLean.

City Survey—Couns. Smith, Vigelius and Wriglesworth.

Sanitary — Couns. Kinsman, Shakespeare and Vigelius.

Fire Wardens —Couns. Wriglesworth, Kinsman and McLean.

Furniture and City Hall—Couns. Mansell, Smith and Vigelius.

Coun. Shakespeare objected to the Street Committee. The chairmanship of that important committee had been through all the wards and he contended that Johnson Street Ward should have had it this year.

His Worship admitted that fault had been found with the Chairman of Street Committee last year; but he believed that it was without cause. The Street Committee for the past year had done excellent work; the chairman of that committee had plenty of time and energy and he had applied it to the business of the city.

Coun. Mansell thought that if any member of the Council had reason to complain it was he; as he had served for three years and had not been chairman of the Street Committee yet.

The Mayor delivered a short address on the duties of the Committees which is crowded out to-day.

COMMUNICATIONS

From H. F. Heisterman, agent for W. H. Oliver, with reference to the St. George Hotel, stating that those premises were properly cleaned before the present tenant took possession; and that if any nuisance existed it was caused by the back premises of the St. Nicholas building. He asked for another examination by the Sanitary Committee.

Coun. Shakespeare thought that the report of last Committee should be acted upon. The nuisance was common to both buildings.

An application for the city barristership was postponed for one week.

TENDERS

For gravelling View street from Quadra to Cook street: G. A. Waiter, $290; Noel LeClair, $315; Joseph Kelly, $300; William Tierney, $343, Abel Beswick, $450; and James Baker, $329. Postponed indefinitely.

Coun. McLean as Chairman of Street Committee wished each member of the Council to send in a list of work he thought necessary in their respective wards. He promised to perform the duties of chairman with the utmost fairness.

NOTICES.

Coun. McLean gave notice of motion to go into committee of whole on the 25th inst. to take into consideration the rearrangement of water rates. Also, at same date a committee of the whole on the sidewalk question.

It was arranged that the advertising and printing be done alternate months by the offices of *The Colonist* and *Standard* as formerly.

Coun. Shakespeare asked the Chairman of Street Committee how many men were now employed?

Coun. McLean stated that there were only six.

Coun. Mansell hoped that all married men would be employed in preference to single men.

Coun. Shakespeare was glad to find that Coun. Mansell was now on the right side. He instanced one man, (Mr. Copeland) an old resident, who had no work for the past six months. He deprecated the idea of parties having anything to do with municipal work.

Coun. McLean explained that such small sums had been spent of late that but few men could be employed. He would always give the preference to married men and old residents. Coun. Shakespeare's remarks were not in accordance with truth—Mr. Copeland had received more money for work than any other man, as the books would show.

Coun. Shakespeare mentioned another party, Wm. Smithers, an old resident, who could not get work.

Coun. McLean replied somewhat warmly that Smithers had not applied for work for a long time past. He could explain every case satisfactorily that Coun. Shakespeare could bring up.

His Worship in explanation of his share of Coun. Shakespeare's strictures said that in a few instances he had sent young men and strangers to the street committee for work; but they were parties in absolute want and he thought it was the best way to afford relief and keep them from starvation.

Council adjourned till Wednesday 26th inst.

GREAT FLOODS IN OREGON.

All the Valleys Under Water.

News from Oregon to Saturday states that heavy rains have occurred throughout the state, and the rivers have overflowed their banks and are sweeping bridges, farmhouses, forests and other objects away. The Willamette river had reached a height within six inches of its highest mark during the memorable flood of 1862. The railway tracks are under water and several railway bridges are in a position of extreme peril. At Portland the goods on the river wharves and in the warehouses were removed to places of safety, the Stark street ferry cable was swept away by drift from up river, and all the streets along the water front were submerged. At Harrisburg the water stands several feet deep in the streets, and the same may be said of other towns along the river. The water, if it continues to rise, will do incalculable damage to houses, barns, fences and farms along the banks of the raging Willamette. It is feared that the floods have extended to California and that Sacramento valley has suffered severely.

IN 1875, about two weeks after the loss of the steamship Pacific off Cape Flattery had wrung many hearts in this province, the steamship Los Angelos, while on the way up the coast, broke a crank pin. Sail was at once set and the vessel kept off shore until partial repairs had been effected when she was headed for Victoria. On the 11th day H. M. S. Rocket went to her relief and meeting her at the mouth of the Straits towed her into port.

AT Broughton street Hall this evening Ici on Parle Francais, and glees, overtures, ballads and choruses.

THE ILL-FATED LUPATA.

THE ONLY SURVIVOR A DOG.

The *Oregonian* says: "At the time of the recovery of the twelve bodies of those who perished in the ill-fated Lupata, a small dog was found on the beach near the spot where the remains of the poor sailors were lying. As that part of the coast is remote from habitation, the animal must certainly have come from the vessel. It is an Australian shepherd, not more than half-grown. The little creature's eyes were very sore from the effects of the briny surf through which it swam to reach the beach, and was nearly half dead from exposure. This dog, like the crew, was thrown on the mercy of the waves, but escaped the common fate which engulfed them. If the animal was only gifted with speech, what a story of terror, darkness and death, on that fearful night would be revealed. The dog was brought over to Astoria and presented to Mr. Phil Holland, who had it conveyed to this city. The same journal adds:—Capt. Remington, master of the British bark Dovenby, now in port, stated in an interview yesterday that he was in company with the Lupata off the Columbia gateway on the evening of January 2d; at that time both vessels were standing off shore, as it was nearly dark. He looked all next day for the Lupata and the day following; failing to see her, Capt. Remington had serious misgivings as to her fate. Capt. Remington accounts for the fact of the nude condition of the twelve men found among the rocks—that as that number would be about half the vessel's crew, probably they constituted "the watch below," who with the house on deck were all washed overboard together by the first breaker that swept her deck after the vessel struck on the reef. Mr. Fred Parker, writing from old Tacoma, informs the *Oregonian* that the Lupata, at the time of the disaster, was in command of his brother, Ben Henry Raven. Mr. Parker received a letter from Yokohama some time since stating that the captain of the Lupata died at sea nine days out from Antwerp, and that he, (Raven) as first mate, brought the ship on to Yokohama, and would bring her on to the Columbia river.

Salted and Popporod.

A certain citizen has a large number of fowls of choice breed of which he is justly vain and correspondingly careful. Within the past two or three weeks he was called on to mourn the departure of several Brahmas. They disappeared, not all at once, but one or two pairs at a time, at intervalls of two or three days. It became evident that his henery was being converted into a preserve by some unprincipled neighbor. Therefore he set his wits to work to punish the thief. He procured an old muzzle-loading shotgun, put in a small charge of powder and on top of that rammed home a big charge of table salt and pepper. Then he went to the chicken house, cocked the weapon, attached one end of a stout string to the trigger and another to the door and went to bed conscious of having discharged his duty as a member of society. Yesterday morning bright and early he repaired to the henery, in expectation of finding the door open and at least one maimed depredator writhing on the ground. But everything was just as he had left it. The door remained closed and the fowls within were cackling vigorously to be set free. He carefully untied the end of the string that was attached to the door and opened it. The fowls made a rush to escape. The citizen turned to walk away when, "rip! bang!" The gun went off and planted the full charge of pepper and salt in the fleshy part of his body. One of the fowls had stepped on the trigger. The poor man reared with pain and his wife ran and assisted him into the house. A certain drygoods house sold one of its softest eiderdown cushions yesterday. The surname of the man for whom it was bought begins with S, which, by a strange coincidence, is the initial letter of the citizen who was salted and peppered by his own infernal machine.

A BUTTER FAMINE.—Not a pound of butter, good, bad or indifferent, to be had in town for love or money. Even the restaurants and hotels are cleaned out of tub butter for cooking purposes; some of them having lent the greater portion of their stock to storekeepers for the purpose of keeping them going till the arrival of the Dakota hourly expected since Thursday. Large consignments of California new grass butter were shipped on that steamer and her non-arrival has caused the scarcity. Here again is a serious leak that B. C. farmers would do well to stop. Victoria ought not to be obliged to depend upon California for this necessary article of everyday consumption. If the worst comes to the worst consumers have only to wear yellow spectacles and they may delude their appetites with the poorest lard.

THE BEN. HOLLADAY ESTATE.—Referring to a rumor that the Oregon Improvement Co. have purchased the Ben. Holladay estate, the Portland *Standard* says:—"This former king of Oregon railways is now a bankrupt, and does not own property in this State to the value of a brass button. Years ago he disposed of all his property, real and personal, in this State to his brother Mr. Joseph Holladay, now a resident here, and this gentleman now is the sole owner of all his brother Ben's former possessions in Oregon." The same paper gives a schedule of the Holladay estate which foots up in value to about $1,500,000.

ROYAL COMMISSION. — It is reported that a prominent supporter of the Government in the House will move for the appointment of a Royal Commission to inquire into the working of the educational establishment, with especial reference to the charges preferred by the Wellington people and the case of Mrs. Hayward.

PUGET SOUND. — The Seattle newspapers are alarmed at the nonarrival of the steamship Dakota....Small-pox of a well-defined type has attacked five members of the Gilliland family near Olympia —only the mother and one little girl having escaped thus far....The Seattle library has been closed for want of support.

THE steamer Isabel, Capt. Morrison, arrived at 7:15 p. m. yesterday from the Sound with the mails, express and passengers. She reported a southeasterly gale in the straits and no news respecting the Dakota.

YESTERDAY some sixty or more large casks of oil were put into the hold of the Princess Royal in lieu of ballast. She will go to Burrard Inlet shortly for a cargo of spars for London.

OSWEGO IRON.—Oregon ships iron from the Oswego mines to California where it commands the highest price.

THE Hanlan-Laycock race came off yesterday.

Municipal Police Court.

[Before Hon. A. F. Pemberton.]

MONDAY, Jan. 17.

The dock and surrounding benches were filled with Indians, Chinamen and whites brought in since Saturday to answer for their conduct in various ways contrary to law.

A family quarrel case was withdrawn before the sitting of the Court, by the complainant making the announcement that the difficulty had been arranged.

The case of Mr. Coigderippe for an infraction of sanitary by-law was on application postponed for one week, awaiting the arrival of Mr. T. Davie, a passenger on board the mail steamer.

An unusual number of Indians, six in all were fined the usual five shillings each.

Charley a Hydah Indian, was charged with having a bottle of gin in his possession. He was arrested by officers Flewin and Sheppard on Sunday afternoon on Store street much intoxicated.

Mr. Courtney for the prisoner contended that it had not been proved that the defendant had either drunk or gave any of the intoxicant away; and that being drunk he did not know he had the bottle in his possession.

As the prisoner had been before the court on several occasions he was fined $25 or in default one month's imprisonment.

Alex. Campbell and Benjamin John were charged with refusing to do duty on board the Signet.

Captain Yee did not wish to press the charge. The men were on shore and had got the worse for liquor. All he wished was that they should promise to behave themselves in future and return to their duty.

Mr. Rithet stated that the men had interrupted the work on board the ship. They occupied the positions of first and second officers and therefore deserved a severe reprimanding.

This was administered by the Magistrate and the defendants were discharged.

Johnny Wilson, a Hydah Indian, was charged with having a boat in his possession which was supposed to have been stolen.

Officer Kirkup stated that the prisoner acknowledged having stolen the boat from Seattle and had made an effort to sell it.

Case remanded.

A Songish Indian named Jimmy Chickens was found by officer Flewin with a bottle of gin under his shirt on Johnson street. He was drunk at the time.

Prisoner admitted having the gin and said that a man named Vincent had supplied him with it, in his, Vincent's, house.

Supt. O'Connor said that the prisoner was one of the worst Indians in town.

Mr. J. W. McKay, J.P., who representing the Indian department, thought that the evidence of a drunken Indian was hardly sufficient to convict Vincent; but it was very desirable that those whiskey-sellers should be prosecuted whenever possible.

One month's imprisonment was inflicted.

Tong You and Ah Sing, two Chinamen, were found about 2 o'clock Sunday morning with sticks of cord wood in their possession, and not being able to give a satisfactory account of themselves were arrested by officer Sheppard and now appeared to answer a charge of vagrancy.

Mr. Courtney for the prisoners contended that a charge of vagrancy could not be given.

Remanded for one day.

John Coleman for disturbing the peace on Sunday was discharged.

In the case of James O'Brien Supt. O'Connor stated that the American counsul had promised to secure a passage for him to San Francisco as soon as possible. O'Brien was accordingly discharged.

J. J. McDonald on remand for supplying liquor to Nitinat Mary.

Mr. Courtney appeared for the defendant and stated that he threw himself on the mercy of the court. He did supply the bottle of gin to the Indian woman, but it was for the purpose of getting his blanket back that had been stolen.

Supt. O'Connor in answer to the magistrate stated that the defendant was an incorrigible whiskey-seller to Indians. He had been before the Court several times and had been convicted before.

Sentenced to three months' imprisonment with hard labor.

Fatal Accident to a Railway Engineer.

On Sunday Mr. Justice Robertson received a telegram dated at Hope from Mr. Mara, M.P.P., stating that Mr. Melchior Eberts, one of the railway engineers engaged in laying out the work on the Yale-Savona railway, had fallen from a bluff and was seriously injured. Later in the day a telegram was received from Mr. Cambie, chief engineer, stating that Mr. Eberts died on Sunday morning without having recovered consciousness after the accident. It is supposed that Mr. Eberts fell from the high bluff just above Alexandra as his party were working there when last heard from. The fall must have been from a great height. Mr. Eberts came to the province in 1872. He was third son of W. E. Eberts, Esq., of Chatham, Ontario, and was 35½ years of age. He was a brother of Mrs. A. R. Robertson and of Mr. D. M. Eberts of this city, and leaves a young wife and child in this city upon whom the intelligence of the sad event will fall with awful suddenness. The deceased gentleman was possessed of dauntless courage and was one of the most active and trusted engineers on the staff. He had been connected with the survey since 1872 and on one occasion saved the life of a member of the Bute Inlet party who had fallen into a swift-running stream by plunging in after him and bringing him safely to shore.

THE DEATH OF HARRY NEIL.—By the Princess Louise from Nanaimo we hear that the death of the late Harry Neil, engineer of the steamer Ada, was caused by heart disease. He was found at 3 o'clock on Saturday morning at the foot of a small flight of stairs in Sabiston's hotel on his hands and knees. He soon afterwards died. There were no marks of injury on the body and as he had been subject to heart disease death undoubtedly resulted from that cause. Deceased was a native of Dublin, aged about 45, and came to this province on the steamer Thames about 20 years ago. He was a brother of Mrs. David Dale of this city and leaves a wife and nine children.

THE EFFECTS OF WHISKEY.—Of the 17 cases at the Police Court yesterday morning all except three or four were the direct effects of using intoxicating liquors. Were it not for the drinking usuage so prevalent among all classes of society here the office of police magistrate would be almost a sinecure. Drunk and disorderly cases among the Indians have been numerous of late. They seem to get alcohol without let or hindrance.

CUSTOM HOUSE BLANKS for Entry, Outwards, Nos. 48 and 48½, for sale in quantities to suit, at *The Colonist* Stationery Store. *

Sworn into Office.

The Mayor, Mr. J. H. Turner, and Messrs. Mansell, Wriglesworth, Vigelius, Shakespeare, Kinsman, Smith and McLean, councillors, were sworn in yesterday at noon before Chief Justice Sir M. B. Begbie and Mr. Justice Crease at the Supreme Court. The Chief Justice congratulated Mr. Turner on being elected Mayor for the third term; and expressed a hope that the new Council would work harmoniously together for the best interests of the city.

NO INQUEST.—It was not considered necessary to hold an inquest on the remains of Mr. Charles Lee who died almost instantly on Sunday evening at Mr. S. Clay's saloon. Dr. Trimble had repeatedly told the deceased that he might at any moment drop off with the complaint (heart disease) from which he was suffering.

EXCEPTIONAL.—In the Police Court yesterday two Chinamen were charged with vagrancy. It very seldom happens that natives of the flowery kingdom are found in such circumstances. Whatever their condition may be their fellow countrymen generally take care to prevent absolute destitution, or at least hide it from the public authorities.

NO FUNDS.—The Government have informed a deputation of Leech River miners that the appropriation for the district is exhausted, and that there are no funds on hand for the improvement of the trail, yet we find that the Supreme Courthouse is being enlarged and repaired without a vote of the House at all!

THE gulf submarine cable was all coiled on board the Electro yesterday evening. She will be ready to sail about Thursday.

Wellington's Complaints.

TO THE EDITOR.—"One who Knows" writes to the *Standard* to cast doubt upon the genuineness of the Wellington petition. Had he adopted for a signature "One who Don't Know" he would have come nearer the truth. I am personally aware of the condition of the Wellington schoolhouse and yard, having left that place on Friday. There is not a single misstatement in the address. I was present when about 12 of the signatures were attached to it. The state of the place may be fitly described by the word "beastly." As for the yard it would be an excellent thing if it were paved with "patent stone." It would afford a solid and enduring walk. When I left the yard was in a condition of muck and uncleanliness that would have disgraced a Siwash rancheria; and in the existing temper of the people I would not be surprised, should the superintendent put in an appearance there before having inaugurated a reform, if they were to rub his nose in the mess after the manner of housekeepers when dealing with an unmannerly cat. I know nothing about an unexpended balance of $30 from the appropriation of 1880, but I have no doubt it will be found to exist through the parsimony of the superintendent. But $30 would not pay for new W.C.'s let alone generally improving the place. The superintendent is alone responsible for the state of affairs at Wellington as the House will ascertain should it ask for the papers.

ANOTHER ONE WHO KNOWS.

A Complaint.

TO THE EDITOR.—It is not an unusual thing to hear grumbling in and about the Police Court respecting the tardiness of the Court in commencing business. Yesterday morning some 50 persons more or less were waiting for the court to open from 11 to 11.35. With a large number of cases on the docket this detention must be very inconvenient for many concerned besides one of those in WAITING.

EXPECTED TO ARRIVE.—The Rev J. C. Baker, of Salem, Oregon, is expected to arrive at Victoria (God willing) on the 13th inst. He will preach in the Baptist chapel every Sunday morning and evening. It is also his intention to hold services during the week to which all are invited. *

BOYS' CLOTHING.—W. & J. Wilson have just received an invoice of Boys' Suits, purchased at the salvage sale of the stock of Samuels Brothers, London. These Suits are made of Samuels Brothers' celebrated "Wear-resisting Fabrics," and as they were bought a great bargain W. & J. Wilson now offer them at less than 10 per cent. advance on Samuels Bros.' marked prices. *

LONDON BAZAAR.—A walk through Carrington's London Bazaar is like a visit to a fair. Every toy or fancy article mind ever conceived is there in beautiful profusion. The taste of parent or friend that cannot be gratified at the London Bazaar must be fastidious indeed. All goods are marked down, his enormous sales enabling Carrington to undersell all competitors. *

WHEN EXAMINED AFTER DEATH, the lungs of those who have died of tubercular consumption are found to be honeycombed with little cells full of purulent matter. To this terrible condition the lungs of any one may be brought who neglects a cough or cold. Unfortunately many so-called cough remedies are inefective as well as impure, containing ingredients absolutely prejudical to the physical well-being of those who use them. There is, however, a source of renewed health and strength upon which persons harrassed and weakened by lung and bronchial affections can depend with certainty. We refer to Northrop and Lyman's Emulsion of Cod Liver Oil and the Hypophosphites of Lime and Soda, which is justly esteemed throughout the Dominion for its effectiveness and purity. The medical faculty have long recognized the value of purified oil, obtained from the cod's liver, in throat and lung affections, and the hypophosphites are universally prescribed in cases of pulmonary decline and general debility. In this preparation the phosphorus which it contains (phosphorus being an important natural constituent of the physical organism) serves to supply stamina and vitality, by enriching the blood, while the lime and soda are of incalculable service in solidifying and strengthening the bones. This medicine not only counteracts pulmonary inflammation and arrests physical decline, but is a valuable remedy in scrofulous cases. As a means of checking and compensating for the tremendous waste of bodily tissue caused by lung and chest diseases—of healing and soothing the irritated membrane of the breathing organs, and of promoting the development of pure, rich blood, this preparation has no equal. All druggists sell it.

WANTED.—An accomplished salesman, to be a second Lord Chesterfield in address, conversant with the four leading languages, and with sufficient self-possession to bottle his own feelings. To submit to affronts passively; to exercise the patience of Job; to subdue pride of character, and smother the promptings of his soul; to have the tincture of the politician without being tainted with it; to regard bribery and customs frauds as low and criminal; to look upon untruthfulness, not as an accomplishment, but as the reservoir from which all other vices percolate; and to be possessed of principles not as lythe as the branches of the willow tree. Such an one will find a remunerative welcome and a useful field to distribute the newly arrived Christmas and New Year's Presents provided for the season. Nothing marvelous, but of their kind good.—T. N. Hibben & Co. *

ALL diseases come from cold, colds come from wet feet, to prevent this go to Maynard & Stubbs and get a genuine pair of porpoise leather boots made.
* Fort street.

W. & A. GILBEY'S WINE AND SPIRITS.—A choice selection of Ports, Sherries, Dessert Clarets, Old Whiskies, Rum and Brandy ex Princess Royal from London. H. Saunders, Family Grocer, Johnson street. * *

IMPERIAL French plums and crystalized fruits, in handsome cartoons. French plums were never imported to this province before. Rich, rare, racy and ornamental for Christmas tree decorations. At FELL & Co.'s, Family Grocers, Fort street.

A Chronic Complaint.

I have been troubled with a Chronic pain in my left side with general debility for more than a year.

After trying different physicians in Victoria for several months with no benefit I consulted Dr. Geiger. Under his treatment I soon began to improve and in six weeks was well, having gained 15 lbs.
* C. DAVIE.

CHRISTMAS GOODS.—Just received, ex steamship Dakota, direct from London, a choice assortment of silk and satin bows, rosettes and silk tassels, for balls and parties; also a fine line of porpoise skin and patent leather uppers, manufactured by Pinton & Son, London; also, something beautiful in French and glove kid, for making ladies' boots. Besides this we have just received a great variety of shoe laces such as porpoise hide, mohair, calf and linen. We have pressed horsehair socks for tender feet, and cork soles for cold feet. We have French calf and kip skins, imported expressly for our own trade; putting these with our large and well assorted stock of boots and shoes, we can safely say that we have the choicest variety to select from in the city. In fact, one look in our store will convince all persons that they have found the right place. So call and examine for yourselves, we charge you nothing, and for every dollar you spend we give you ten cents back. Now is your time, keep your feet dry and save money besides.
MAYNARD & STUBBS,
* Fort street.

DEATH IN THE COFFEE POT.—The public are cautioned against purchasing imported California ground coffee. Its cheapness is its only recommendation. The ingredients are of the vilest description, as anyone using it will discover should he examine the grounds. During the perihelia of the planets people should be careful what they eat and drink. Don't allow your grocer to palm off his trash upon you, because it pays him better to sell it than the good article. Ask for FELL & Co.'s Coffee and take no other. *

JUST RECEIVED, DIRECT FROM THE MANUFACTORIES OF JAMES DICKSON AND SONS, SHEFFIELD, A WELL-ASSORTED LOT OF ELECTROPLATED WARE, COMPRISING TABLE SETS AND PIECES, GENTLEMEN'S DRAM FLASKS, AND LADIES' CARD CASES ALL ELEGANT IN DESIGN. ALSO, FROM CELEBRATED MAKERS IN LONDON A NICE LOT OF MEERSCHAUM, BRIAR ROOT, IRISH BOG, OAK AND OTHER PIPES, CIGAR AND CIGARETTE HOLDERS, ETC.

PORTLAND

CITY HOMESTEAD.

THE LAND IN THIS ENTERPRISE LIES ADjoining the city, and is only from ten to fifteen minutes' walk from the court-house, and a less distance than that from one of the best public schools in the city.

PRICE.

All lots will be sold for $100 each, payable in instalments of $5 per month, or the small sum of 16⅔ cents per day. No interest will be charged, and a good and sufficient Bond for Deed will be given upon the payment of the first instalment of $5 and a Warranty Deed upon receipt of last instalment, both without expense to purchaser.

TO PURCHASERS.

Those not finding it convenient to make their payments when due, will be granted twenty days' grace in which to make such payments, as it is desirable that all shall have every possible opportunity to keep up their payments.

Those desiring to make full payment at the time the Bond is issued, will be entitled to a reduction of $10 on each lot, or $5 on each $50 paid in.

The Oregon and California Railway passes immediately in front of the property. The land is high, never subject to overflow, and the rapidity with which the city of Portland is extending its limits warrants the assertion that the lots now offered will soon be in the heart of the city.

COUNCIL CHAMBERS, VICTORIA, 6th Jan., 1881.

To the Worshipful the Mayor and City Councillors.

GENTLEMEN:—I present herewith Statements of Cash Assets and Liabilities, Receipts and Expenditure and Ledger Balance Sheet for 1880.

The partial reconstruction of the Water Works and compensation claims having cost nearly $8000; payments on account of City Survey about $3,900; Fencing the Cemetery about $500, and Arrears of Salaries charged in December, 1879, and paid in January, 1880, $1,700, making in all about $14,000, will account for the deficiency shown on the Statement of Assets and Liabilities, which without these extraordinary charges would show a large surplus.

As the Cash Statement of Receipts and Expenditure does not show the actual expenditure on the principal account to the close of the year, I supply that deficiency by giving the figures from the closing entries, as follows, *i. e.*—

Street Repairs	$12,416 67
City Police	9,649 14
Charges	5,415 95
Street Lighting	3,497 67
Water Works	14,201 25
Board of Health	1,080 15
	$46,209 93

Showing a difference of $9,923 93 expended and covered by certificates of indebtedness and sundry outstanding accounts.

I have the honor to be, Gentlemen, yours most obediently,

J. C. BALES, Auditor.

CHAMPION PORTABLE SAWMILLS

George Book writes, St Anns, Ontario, June 17th, 1879, regarding his 10 horse power Champion Sawmill: "Last week, on Monday morning, three men of us commenced to tear up mill and move it, we tore up, moved three miles, set it up and on Tuesday at three o'clock sawed a log with it. Not quite two days. In one week we moved and set it up as mentioned, and sawed twenty thousand feet. I will write full particulars soon. We sawed six hundred feet in twenty-nine minutes — inch lumber." Three sizes built—12 H.P. using 44 in. saw, capacity 3 to 4000 per day. 16 H. P. using 48 in. saw, Capacity 4 to 5000 per day. 20 H. P. using 52 in saw, No. 8 saw irons. Capacity 5 to 8000 per day.
